CROP TESTING SERVICES

MAKING THE DIFFERENCE

INNOVATIVE QUALITY, SAFETY & SUSTAINABILITY FOR COMMODITIES

QUALITY

SGS

For Canadian grain producers, the opportunity and ability to adapt have never been greater, both at home and abroad. To support the demand for top-quality Canadian crops, we deliver highly accurate and efficient testing for GMO, wheat and barley varietal purity, grain grading and mycotoxin quantification. Within Canada's grain handling system, we deliver quality assurance, traceability and sustainability.

WHAT WE DO

GMO TESTING

- Flax (CDC Triffid)
- Canola – seed, meal and oil products
- Corn
- Soybean
- Alfalfa
- GMO screen for grains, food and feed products

For the above noted tests, we deliver qualitative, quantitative and semi-quantitative testing.

VARIETAL IDENTIFICATION/ PURITY TESTING

- Malting barley purity testing
 - CDC Copeland, AC Metcalfe, AAC Synergy, AAC Connect, Bentley, CDC Meredith, CDC Kindersley, CDC Polarstar, CDC Platinum Star, Newdale & Harrington
- Wheat varietal identification

QUALITY TESTING

- Grain grading
- Mycotoxin quantification (DON/ vomitoxin, OTA/ ochratoxin, Aflatoxin, Zearalenone)
- Falling number
- Moisture estimation
- Protein estimation
- Insect infestation detection
- Germination

WHY SGS?

LOCAL CANADIAN TESTING FACILITIES

- Quicker turnaround times and speed to market for Canadian growers, manufacturers and retailers
- Competitive pricing and elimination of cross-border shipping costs

UNRIVALLED GLOBAL EXPERIENCE

- Over 130 years of experience in serving the global agriculture and food market, with origins as the first grain inspection company based out of Europe
- Laboratories that use state-of-the-art equipment and follow best practices shared by our 2000 labs globally. We apply world-class standards to local Canadian seed, grain and soil testing services.

INDUSTRY ACCREDITED

- ISO/ IEC 17025 accredited lab (GMO Testing)
- ISO/ IEC 9001 accredited lab (Quality Testing)

EASE OF SERVICE

- Bundled service options to save you time, money and resources on multiple tests.
- World-class, person-to-person customer care.

TECHNOLOGY & INNOVATION

Innovation is at the heart of our business. New technologies deliver knowledge, insight, transparency and efficiency for our customers.

SGS BENEFITS

- Proven services that reduce risk, ensure quality & enhance productivity.
- Over 130 years of experience in agricultural inspection and testing services worldwide
- Global benchmark for quality and integrity
