CROP TESTING

MAKING THE DIFFERENCE

INNOVATIVE QUALITY, SAFETY & SUSTAINABILITY FOR COMMODITIES

SGS

For Canadian grain producers, the opportunity and ability to adapt have never been greater, both at home and abroad. To support the demand for top-quality Canadian crops, we deliver highly accurate and efficient testing for GMO, wheat and barley varietal identification/purity, grain grading and mycotoxin quantification. Within Canada's grain handling system, we deliver quality, assurance, traceability and sustainability.

EXCELLENCE

OUR SOLUTIONS

SGS provides a complete suite of analytical services for all agricultural commodities. We offer you unrivalled experience and expertise, the latest technologies, state-of-the-art laboratories, experienced staff and a unique standardized global network.
